	with information about these groups and their services, e.g. Workforce services, police, local businesses.	education provided by other libraries that could be provided at Duchesne County branches. Evaluate the feasibility of providing these new	Continue public awareness campaigns concerning cooperative events and community services offered at the library.	
	Continue to meet library certification benchmarks for amount of events offered.	services and organize resources accordingly.		
	Evaluate current programming effectiveness using statistics and gathering information and anecdotes from patrons attending, and not attending programming.	Prepare and initiate public awareness campaign concerning these new services.		
Outreach / Awareness	Fully implement Tabiona and Altamont programs/equipment. Pursue programming possibilities. Continue outreach services to Parkside Manor and The Villa. Contact schools about collaboration opportunities including a county library	Collect and evaluate data concerning effectiveness of library digital and print advertising. Add, drop, or adjust methods as necessary. Continue library collaborations with schools and presence at literacy events. Gather input from partners at schools to improve on library cooperation and plan	Gather ideas from patrons about most effective library communication efforts and consider new methods that the library could utilize, especially those that patrons may be more widely using than before. Train staff on new methods and retire or initiate new methods as appropriate.	
	presence at literacy nights. Partner with Uintah County Library in assisting Venita K. Taveapont Library (Uintah River High School) to open as a new branch in the Basin Libraries Consortium.	for new opportunities. Evaluate library outreach efforts in Tabiona, Altamont, Parkside Manor, The Villa, and others. Communicate with and gather input from cooperating partners and implement improvements to services and programming offered.	Continue to network with current community partners and explore new opportunities with other entities. Evaluate feasibility of initiating new partnerships while maintaining current ones.

Regional History (cont.)	cemeteries are completed.	procedures for maintaining cemetery information and re-prioritizing staff projects will be completed, e.g. digitizing photo negatives, organizing materials, etc. Long-term storage plans and priorities will be evaluated and implemented with the limited space available.	
Lifelong Learning	Budget for and begin acquiring county purchased eBooks to supplement Utah Online Library Overdrive collection. Develop pamphlets and audiovisuals for patrons about how to access eBook collections, including county collection. Acquire patron requests for learning and recreational materials in accordance with Collection Development policy. Attend professional development to acquire new ideas for programming and community learning opportunities. Plan and implement selected programs.	Evaluate initial county eBook use and request procedures and adjust for efficiency. Evaluate use of Recorded Books Digital and decide whether to invest in that eAudiobook platform as well. Develop promotional materials and tutorials about Utah Online Library databases. Train staff about the Utah Online Library databases so they can begin educating patrons about them. Consider mobile app learning programs and platforms for children and adults that may be well-received. Examine feasibility of adding possible candidates. Continue professional development about programming and implement selected programs.	Evaluate Utah Online Library database use and consider county purchased databases that would be of use to patrons. Begin meeting with vendors about their products and arrange product trials. Evaluate eMaterial platforms and investment in those county collections. Adjust according to demand and need. Purchase new vetted learning mobile apps and platforms. Train staff and share with patrons. Continue professional development about programming and implement selected programs.
Roosevelt Branch	Tour recently constructed libraries that serve similar population sizes as Roosevelt. Collect photos, gather ideas, and ask about pitfalls from the senior staff of those branches. Roll out public awareness campaign about possibilities of services with	Continue contact with community leaders and stakeholders about public input and progress. Initiate contacts with architects to do feasibility studies and charrettes following public input efforts.	Initiate preparations for project bidding process once funding is secured.

Roosevelt Branch (cont.)	improved Roosevelt facility and also highlight needs that cannot currently be met with current facility. i.e. website, community events, mailers, etc. Distribute public surveys online (in cooperation with Roosevelt City) and in hard copy about possible new library services with new facility and ask about needs not currently being met. Gather and evaluate possible locations for a new facility. Hold public open houses to show library tour photos, share survey feedback, share ideas for new services and facilities, share possible site locations, gather input from the public about proposed ideas and hear of new ones not considered.	Develop and collect feasibility studies and charrettes that can be presented to various boards and funding opportunities. Share with community leaders, stakeholders, and the public.	
Accessibility to Technology	Budget for, replace and update patron computers, printers, scanners, and office machines. Evaluate audio and visual creation and editing computer programs to be offered to patrons. Purchase initial programs, train staff in its use, and educate patrons about new services. Attend professional development about new technology services that can be provided to patrons. Evaluate feasibility and prepare budgets for new technology service efforts.	Replace and update current patron hardware and software technology as needed. Continue technology professional development, evaluation, and budgeting process. Explore other "makerspace," "creative," and assistive technologies, besides solely office machines. Purchase budgeted new technology. Train staff on new technology. Prepare educational materials for patrons about new services. Promote services.	Continue aforementioned technology evaluation, training, replacement, and acquisition.
